(2) Customer Deposit NIM eliminates the distortions created by TFS drawings and provides a real measure of how effectively the customer deposits are being put to work. As TFS unwinds (repayments are due four years from drawdown) the simple NIM calculation will move closer to Customer Deposit NIM.
with store contribution and performance continuing to increase

Store contribution increases for new and existing stores (quarterly)

- All stores open 18 months or more make a positive contribution
- New stores open with more deposits and grow faster as each annual cohort benefits from:
  - Increased network effect
  - Organisational learnings
  - Brand recognition 89% in London
- The existing network is the engine of growth
  - 43% comp store growth in deposits for stores open 12 months+
  - 39% and 35% for stores open 24 months+ and 36 months+
- In stores open 12 months+ safe deposit boxes cover over 80% of the store rent

ROE: c.14%

- Following sustained outperformance, we increase deposits per store per month from c.£5.25m to £5.5-6.5m. We adjust the store outlook from c.110 to c.100
- To reflect the momentum of our lending and the market opportunities we see, we increase our Loan to Deposit ratio from c.85% to 85-90%
- TFS has had a distorting effect on NIM + fees impacting it by 37bps so we have introduced ‘Customer NIM + fees’ which more accurately reflects underlying business performance
